MILLER EXCITEMENTAT. We learn that some thirty citizens of Orrington have become so much excited with the advent theories of "father Miller" as to neglect all business and to live have set the twenty-third of March as the day the fall of Santa Anna. It seems that papers be eaught up in the air to meet their Lord.

The selectmen of Orington have given public notice, by hand bills, that several persons named are to be placed under guardianship and all persons are cautioned against purchasing amy property, real or personal of them, as all contracts or deeds will be void on account of their incompetency to manage their affairs. is certainly deplorable, that men with lamilies and who have provided for their wants and sccamulated property by years of industry, should be so much overcome by three theories of Mr. Miller, as to neglect all business, throw off all care for the future and expuse themselves and their families to the peltings of the pitiless storm! of poverty. The number of these believers is the lead of selling out all they possess to supply immediate wants and to leave the future uncar-

ed for. We learn that in Atkinson, Piscataquis coun- in giving it to your readers. ty, the receivers of Mr. Miller's advent themries are exceedingly zealous in the rause. They have a new theory, which is, that the day of grace has been past and that we are all now ineternity, and that the "awful horrors" of the general judgment are soon to be manifested to Amisa Sprague.
